

Autism Workshops

The Adolescence workshops are more relevant to those working within children's services but may also be of interest to everyone.

Autism Workshop Learning Outcomes

Adolescence The Theory

- To understand the impact of autism on the changing social demands during adolescence and how this presents in individuals with autism.
- To learn how autism affects an individual's understanding of puberty including the physical changes that accompany this.
- To understand the role of communication/sensory sensitivities in coping with and managing puberty.

Get in touch

To discuss your particular training requirements and for information and advice on any of our courses, please get in touch. We would love to talk about how we can work together ...
