

Brid Cullen

What's important to me...

- Working as part of a team that communicates well
- Knowing that what I do makes a real difference to people's lives
- Spending time with family and friends
- Getting the right work/life balance
- I believe that we can all use our own power to change things in our life
- Keeping a positive outlook
- Believing that you can achieve more working with other people than on your own
- Listening to music
- Being part of a community choir that just loves to sing!

What people like and admire about me...

- Sense of humour
- Enthusiasm and positive attitude
- My background work with community groups and organisations across a wide range of settings
- I help to make connections between people who face some of the same issues
- I can join up the dots and see the bigger picture when things look difficult

How best to support me...

- Tell me what's important to you, so that I can understand you better
- I like to be prepared for meetings and events, so that people who come along get the information they want and need
- Give me feedback on my work and how it helps to make a difference
- Be open and honest with me! I'll be honest with you
- Trust me and my judgment, even if you disagree
