

Autism Workshop

The Introduction to Autism workshop is relevant to children and adults.

Autism Workshop Learning Outcomes

Introduction to Autism

- To understand what the characteristics of an autism spectrum disorder are and how the impact of these are individualised.
- To understand the differences in presentation between Asperger Syndrome and autism.
- To understand the differences in presentation between females and males on the spectrum.
- To understand the impact of sensory integration on the individual.
- To gain knowledge of assessment tools to understand WHY a behaviour/communication occurs.
- To gain knowledge around the different types of interventions that can be put in place.
- To understand what a positive outcome for someone with an autism spectrum disorder is.

Get in touch

To discuss your particular training requirements and for information and advice on any of our courses, please get in touch. We would love to talk about how we can work together ...
