

Robin Paris

What people like and admire about me...

What's important to me...

I like spending time in the garden with my wife and Labrador. We like to grow tasty fruit and veg, the dog likes to eat all the ripe fruit before we get there.

Making a difference to other people's lives and improving their wellbeing.

Outdoor spaces, but native woodlands most of all. I love to camp in wild places.

Foraging for wild food and understanding how different resources in nature can be used.

Following my own curiosity and learning new things.

I'm a fan of DIY and giving things a go. I like working on cars, building structures, making furniture and wood carving.

How best to support me...

Be honest and open with me, I'm always keen to improve.

I don't always take on all information from the written word, sometimes it's good to chat things through.

I'm not always good at asking for help, a nudge now and again always helps.

Having clear objectives and timescales helps me get things done.
